

Thank you for considering supporting Jenison Robotics. We are excited to be planning for the 2016-2017 competition season. Last year Jenison Robotics fielded eight high school and middle school teams and 14 elementary school teams. In all, 150 Jenison Public Schools students participated in robotics. Three middle school teams and six elementary school teams qualified for the Michigan State Championships. Of those, we had two teams win at the state level and qualify to compete at the VEX World Championships in Louisville, KY. We are very proud of our students and their achievements in just their first year of competition. It would not have been possible without the support of the community and businesses like yours.

Who are we? Jenison Robotics is a program serving Jenison Public Schools students in 4<sup>th</sup>-12<sup>th</sup> grades. Teams of students design, build and program their own robots. They then compete against other teams from Jenison, Grandville, Hudsonville and around the state. Students learn valuable lessons in engineering, programming, teamwork, problem solving and sportsmanship.

Based on the excitement from last year we are anticipating more than 200 students will participate in 2016-2017. Along with the expected growth, we are shrinking the size of our teams to give each student more hands-on time with their robots. This change will be great for the kids, but requires the program to purchase more equipment. All money raised will go toward robot kits, parts and computers for the students.

The old saying is true, every little bit helps. All donations are tax-exempt under the Internal Revenue Code section 501(C)(3). We are very appreciative of any donation you can make. However, we do have sponsorship opportunities available as well if your organization is able.

## **Platinum Sponsorship: \$750**

Largest Name/Logo on team shirts. Banner recognition with other Platinum level sponsors. Recognition on our website and social media. Verbal recognition at league events. A thank-you video for your website and social media pages. Sponsor plaque.

## **Gold Sponsorship: \$500**

Larger Name/Logo on team shirts. Banner recognition with other Gold level sponsors. Recognition on our website and social media. Sponsor plaque.

## **Sponsor: \$250**

Name/logo on team shirts. Recognition on our website and social media.

Thank you for your support as we build a strong Jenison Robotics program and train the engineers and computer programmers of the future.
