

Thank you for considering supporting Jenison Robotics.

Who are we? Jenison Robotics is a program serving Jenison Public Schools students in 4th-12th grades. Teams of students design, build and program their own robots. They then compete against other teams from Jenison, Grandville, Hudsonville and around the state. Students learn valuable lessons in engineering, programming, teamwork, problem solving and sportsmanship.

Last year Jenison Robotics fielded teams from the High School, the Jr. High, and every elementary school. In all, over 200 Jenison Public Schools students participated in the robotics program. Our goal is to inspire students to pursue careers in science and technology. We do this by creating opportunities for students to engage in after school activities that create a very effective mix of technology and sports.

We are excited to be planning for the 2018-2019 competition season. Over the last several years Jenison teams have found a lot of success on the competition field, representing our community at the VEX State Championship and at the World Championships in Louisville, Kentucky.

But the program is more than wins and losses. These students have gained valuable engineering and programming experience in a safe and supportive after school setting. This would not be possible without the continued support of our community and local businesses.

Based on the excitement from last year we are anticipating more than 200 students will participate again in 2018-2019. Along with this, we are moving into our own permanent space in the old ECC building. This change will be great for the kids, but requires the program to purchase more equipment.

Jenison Robotics is a volunteer run, non-profit program. All money raised goes directly into the program for things like robot kits, parts and computers for the students. The old saying is true, every little bit helps. All donations are tax-exempt under the Internal Revenue Code section 501(C)(3). We are very appreciative of any donation you can make. However, we do have sponsorship opportunities available as well if your organization is able.

Thank you for any contribution you can make. Feel free to call or email if you have any questions or would like to learn more about Jenison Robotics.

Sponsorship Opportunities

Premium Sponsorship: \$1000

- Company logo on screen and verbal recognition as a premium sponsor at Jenison hosted tournaments and competitions
- Company logo and mentions on our Facebook page and social media
- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at jenisonrobotics.org

Platinum Sponsorship: \$750

- Company logo and mentions on our Facebook page and social media
- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at jenisonrobotics.org

Gold Sponsor: \$500

- Company logo displayed on team banners at robotics tournaments and competitions
- Company logo on team shirts
- Company logo and link to your website on our sponsor page at jenisonrobotics.org

Silver Sponsor: \$250

- Company logo on team shirts
- Company logo and link to your website on our sponsor page at jenisonrobotics.org

Thank you for your generosity and support as we build a strong Jenison Robotics program and train the engineers and computer programmers of the future.
